Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 August 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 4-8 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claimed invention is directed to nonfunctional descriptive matter. See MPEP 2106.IV.B.1(b), first paragraph.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4-13 are rejected under 35 U.S.C. 103(a) as being obvious over Rodriguez et al. in view of King and Rubstein et al.
5. Rodriguez et al. teaches (independent claims 4, 7 and 9) a multipurpose card and method for encouraging retention of business or greeting cards and simultaneously increasing visits to participating websites, the multipurpose card comprising: a business card, which, by definition, has business identifying indicia thereon (Webster's Collegiate Dictionary); and binary data printed thereon to initiate a link to an Internet site (para. [0006]), which reads on a web site address printed on the business card. Rodriguez et al. also teaches business/vendor promotions at the web site identified on the card (para. [0019]), so the Internet-linking binary data printed on the card reads on discount indicia printed on the card. Rodriguez et al. also teaches *calling cards* (para. 0022]), which reads on greeting cards.
6. Rodriguez et al. does not teach multiple vendor addresses printed on the card. King teaches multiple advertisements printed on the card (col. 2 lines 50-52). Because King also

Art Unit: 3622

suggests the use of said card by a hotel, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to advertise a host of hotel-related businesses on the card, such as shops in the hotel building and taxi companies, which reads on multiple participating vendor addresses. Further, because such cooperative advertising would promote all the participating businesses, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to add the teachings of King to those of Rodriguez et al.

7. Rodriguez et al. does not teach a promotion code printed on the card. Rubstein et al. teaches a game code (promotion code) printed on the card (para. [0055]). Because Rubstein et al. teaches that this provides security (the *control feature*), it would have been obvious to one of ordinary skill in the art, at the time of the invention, to add the teachings of Rubstein et al. to those of Rodriguez et al.
8. Rodriguez et al. also teaches claims 5, 10 and 12.
9. None of the references teach (claims 6, 8, 11 and 13) printing on the opposite side. Because it would be counterproductive to print everything on one side of the card, it would have been obvious to one of ordinary skill in the art, at the time of the invention, to print on the opposite side of the card.

Conclusion

10. **COPY of REFERENCES** - Applicant is entitled to receive a copy of every reference cited by the examiner (except at allowance; MPEP 707.05(a)). Applicant should contact the examiner if a completed form PTO-892 is enclosed, but the cited references are not.
11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
12. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3622

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald L Champagne whose telephone number is 703-308-3331. The examiner can normally be reached from 6:30 AM to 5 PM ET, Monday to Thursday. The examiner can also be contacted by e-mail at donald.champagne@uspto.gov, and *informal* fax communications (i.e., communications not to be made of record) may be sent directly to the examiner at 703-746-5536.
14. The examiner's supervisor, Eric Stamber, can be reached on 703-305-8469. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-5771.
15. **AFTER FINAL PRACTICE** – Consistent with MPEP § 706.07(f) and 713.09, prosecution generally ends with the final rejection. Examiner will grant an interview after final only when applicant presents compelling evidence that “disposal or clarification for appeal may be accomplished with only nominal further consideration” (MPEP § 713.09). The burden is on applicant to demonstrate this requirement, preferably in no more than 25 words. Amendments are entered after final only when the amendments will clearly simplify issues, or put the case into condition for allowance, clearly and without additional search or more than nominal consideration.
16. Applicant may have after final arguments considered and amendments entered by filing an RCE as appropriate. It is the examiner's practice to search the specification of RCE filings for allowable matter. However, unless indicated in this or a previous Office action, examiner cannot give assurances that filing an RCE will result in an indication of allowable matter.
ABANDONMENT – If examiner cannot by telephone verify applicant's intent to continue prosecution, the application is subject to abandonment six months after mailing of the last Office action. The agent, attorney or applicant point of contact is responsible for assuring that the Office has their telephone number. Agents and attorneys may verify their registration information including telephone number at the Office's web site, www.uspto.gov.
